

Engaging with Poverty In Mind 2016-17

Grade K-12 teachers across the county will gather together to discuss the effects of poverty on a child's brain and strategies to help mitigate those effects.

The workgroup will focus on understanding the brain and behavior of children in poverty, research driven strategies for teaching those minds, and real classroom examples of Douglas County educators using those strategies.

The Benefits of Poverty In Mind Workgroup

- Gain insight into students' brains
- Add to your strategy repertoire
- Connect with peers
- Have fun
